

ENVIRONMENTAL & SUSTAINABILITY STUDIES

FORGING FUTURES
T  **GETHER**
NORTH CENTRAL MICHIGAN COLLEGE

With global concern growing about climate change and environmental degradation, there is an increasing need for individuals with the knowledge and expertise to address these challenges. North Central's program integrates knowledge from various disciplines including biology, chemistry, economics, and social sciences, providing students with a holistic understanding of environmental challenges. Graduates are well prepared to contribute to the well-being of the planet and future generations with roles in environmental policy, renewable energy, conservation, sustainable business practices, and more.

ALUMNI SPOTLIGHT

I prefer to learn by doing something active rather than sitting in a classroom.

* ENVIRONMENTAL & SUSTAINABILITY STUDIES — ASSOCIATE OF ARTS

Our interdisciplinary curriculum incorporates knowledge and insight from various fields including biology, sociology, economics, and geography, preparing graduates to tackle complex environmental issues from multiple perspectives. Hands-on learning opportunities such as fieldwork, lab experiments, and internships allow students to apply theoretical knowledge to real-world situations. Graduates are prepared for entry-level roles in environmental and sustainability studies or for bachelor's degree completion in this or a related field.

TRANSFER OPPORTUNITIES

Graduates are prepared for entry-level roles in environmental science or for bachelor's degree completion in this or a related field. Scan the QR code for detailed transfer information.
